

Dear Mr Coffey

I am writing to thank you for how much you taught me and the experiences you shared. The experience that you shared ~~did~~ a lot of good. It taught me that I should be open honest as much as possible. As we talked through the good and I was explaining the trauma I had I felt a somewhat of a connection. It's like the feeling of being able to talk and express the way I feel about my trauma. As you may know my father was very abusive towards me. When I came to Wood County I didn't even like it when the subject comes up about my father. Now I can talk to just about any one on this campus. I am just saying you make feel great when I could just express every thing that I felt to you. I Thank You.

Morgan
